Disability in the Ottoman Arab World,
1500-1800. Sara Scalenghe. Physical,
sensory, and mental impairments can
influence an individual's status in society
as much as the more familiar categories of
gender, class, religion, race, and ethnicity.
This was especially true of the early
modern Arab Ottoman world, where
being judged able or disabled impacted
every aspect of a person's life, including
performance of religious ritual, marriage,
job opportunities, and the ability to buy
and sell property.
